Campania Melting Pot of People and Cultures

ILLUSTRATION CONTEST

ALTANUR ASSOCIATION

CAMPANIA: Melting pot of people and cultures

Illustration contest organised by the Cultural Association ALTANUR within the scope of “**Le Conessioni Inattese 2021**” under the sponsorship and support of Campania Region (Plan for cultural promotion of Campania Region for the year 2021), under the auspices of Città di San Giorgio a Cremano and in partnership with La Bottega delle Parole and CUP of PINO.

Topic - Campania: melting pot of people and cultures

Campania and, in particular, Naples, thanks to their central location in the Mediterranean, have always been a strategic melting pot of peoples, not only between North and South, but also between East and West.

Naples and the Campania Region are the place where an unparalleled crossing of cultures and languages has developed through time and they represent, at once, a unique reality in which warm welcoming, dialogue and empathy coexist with thousands of archeological finds and evidence of different peoples.

Landing place of the ancient Greeks, land of conquest by the French and the Spanish, land raided by the Saracens and land yearned for the famous Grand Tour.

This thousand-year old history is the reason why xenophobia, racism and exacerbated nationalism (sentiments that often accompany the delicate process of integration of the migration flows that have affected Italy over the centuries) are alien to the Neapolitan ethos.
